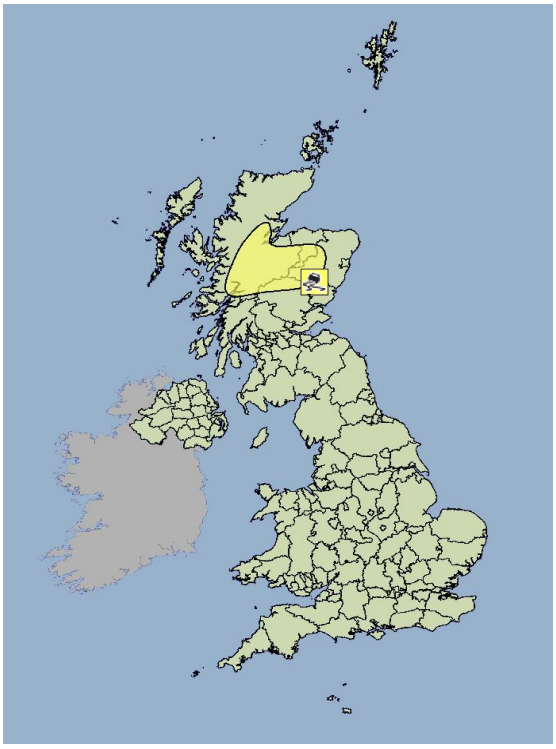
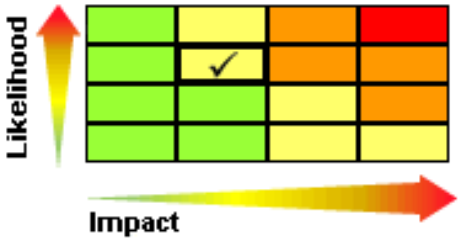
National Severe Weather Warning Service





Chief Forecasters Assessment
Temperatures will fall quickly during Monday evening allowing ice to form in places. Road temperatures will rise slowly later in the night as the amount of cloud and showers increase.

Showers will be wintry on the high ground and 2-5 cm of snow may accumulate, mainly above 300m.

The Met Office have issued a **Yellow Warning** of **Ice**

Valid from **17:00 on Mon, 27th Nov 2017** until **09:00 on Tue, 28th Nov 2017**

Ice is expected to form during Monday evening and may persist in some places throughout the night. Icy patches will develop on untreated roads, pavements and cycle paths or where showers cause wash off on treated roads.

Showers will be wintry on the high ground bringing an additional hazard.
